# FACTS

# How does Good Tree Capital protect your personal information? Why?

As a financial services company, Good Tree Capital understands that the information collected and shared with us by our borrowers and investors contains highly sensitive data with the potential to cause significant harm if it falls in the wrong hands. We take our role in safeguarding your information seriously. What?

We maintain a comprehensive security program based on industry standards and best practices. We take a defensive, in-depth approach to implementing rigorous technical safeguards to ensure your information is safe from unauthorized access or misuse. The safeguards include preventive, detective, and corrective controls.

## How?

Technical safeguards like perimeter security, industry standard encryption, two-factor authentication, and continuous monitoring ensure that your information is protected with layered and complementary controls. We review and adjust security safeguards periodically based on ongoing risk assessment. However, despite our substantial investment in protecting your personal information, ultimately no institution can guarantee its absolute security.

Methods of protecting your personal information

Encryption & website certificates	Industry standard encryption protects the information you share with us from the moment it leaves your computer until it reaches our systems. Look for the secure locked padlock on your browser, which means you are using a secure web connection. Consult your web browser documentation for more information.
Session time-outs	We employ session time-outs to protect your account. You will be logged out of the website automatically after a period of inactivity. This reduces the risk of others being able to access your account if you leave your computer unattended.
Passwords	You should never share your password with anyone. Your password is not known to any Good Tree Capital employee or third party, and we will never ask for your password by phone or email. If you ever receive a communication claiming to be from Good Tree Capital that asks for your password, you should immediately report it by emailing support@goodtree.capital
Identity theft protection	We have developed and implemented an identity theft prevention and response program that is designed to detect, prevent, and mitigate identity theft when borrowing or investing through the Good Tree Capital platform. We utilize authentication technology to verify the identities of our investors and borrowers, and have established processes, procedures, and training for Good Tree Capital employees to identify and respond appropriately to identity theft red flags. Under our agreements with investors, we are obligated to repurchase loans in cases of confirmed borrower identity theft. Additionally, we will work with law enforcement authorities as appropriate to track down and prosecute anyone who has committed identity theft on the Good Tree Capital platform.
